To Whom It May Concern:

I would like to take this opportunity to offer my support for Doug Stead and his expertise on child pornography.

Child pornography exploits the vulnerability of children. It is our moral duty as Canadian citizens to prevent this from happening. Doug Stead is a strong proponent arguing for the need of legislative reform in dealing with issues surrounding children and pornography. I have been in regular contact with Doug and his concerns around the structure of the bill itself. His expertise in the topic is vast and he can be a vital contributor in recommendations for the child-porn bill. I am confident you will find his opinions to be objective and informative.

Please do not hesitate to contact me in regards to any questions you may have about Doug Stead. Thank you for your time.

Sincerely,

A handwritten signature in black ink that reads "Harry".
